RE: Roslyn Road Construction Update

Dear Resident:

Weather permitting, the contractor will continue working on placement of topsoil followed by new sod. Please refrain from parking along the street. The restoration crews will need the entire roadway in order to access and restore the area as well as watering.

Weather permitting, the contractor is scheduled to mill the asphalt surface mid-next week. Following the milling operations, the contractor will prepare the milled surface or stone base for the base and wedge layers of asphalt pavement. Weather permitting, the contractor is planning to pave the base and wedge layers of asphalt late next week. Residents will continue to have overnight access to driveways. However, due to the disruptive nature of the milling and paving operations, we ask that residents continue to remove vehicles from driveways by 7:00 a.m. next week and refrain from regular use of the roadway until the work day is complete.

As always, we apologize for any inconvenience this may create, and we appreciate your patience and understanding during construction.

GENERAL CONSIDERATIONS

Please place garbage and recycling curbside, be sure not to place on new sod. Pickup will be in the late afternoon. Please do not put out any bulk items or yard waste this week.

Please note, the contractor is responsible to maintain access for emergency vehicles throughout construction. However, in order to reduce the potential for incidents, the Public Safety Department has asked to please refrain from using fire pits and chimneys during construction.

If you have any concerns or special needs during construction, please contact the onsite representative from the City's Consultant Anderson, Eckstein and Westrick, Inc. (AEW). Questions regarding construction operations should be directed to the attention of AEW at (586) 726-1234. Please direct any other questions to the Department of Public Works (313) 343-2460.

Very truly yours,

CITY OF GROSSE POINTE WOODS

Jim Kowalski, Director of Public Services
