**DESCRIPTION OF WORK:**

\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_

All concrete shall be a minimum of four (4) inches thick throughout (aprons and sidewalk across driveways are 6" or 8") and shall be placed on a four (4) inch compacted sand or aggregate base. Where the underlying soils have been disturbed in the past twenty-four (24) months, compaction tests, borings and/or reinforcement may be required. Concrete shall have a minimum compressive strength, at twenty-eight (28) days, of three thousand two hundred (3,200) pounds per square inch.

**PLAN REVIEW:** A grading plan shall be provided for all new concrete placement clearly showing the existing and proposed grading and drainage. The Building Official may waive this requirement when, in his opinion, it can be demonstrated that adequate drainage exists on the site. A grading plan may be required for replacement work if there is evidence of current or previous drainage problems on the site. A site plan showing the dimensioned location of all concrete must be attached.

**REQUIRED PLAN ATTACHED.** ( ) NO ( ) YES

<p><b>HOMEOWNER AFFIDAVIT</b> (IF pulling permit as a Homeowner)</p> <p>I hereby certify the impervious surface work described on this permit application shall <b>be installed by myself in my own home</b> in which I am living or about to occupy. All work shall be installed in accordance with the Michigan Building Code and <b>shall not be enclosed, covered up or put into operation</b> until it has been <b>inspected and approved</b> by the Building Inspector. I will cooperate with the Building Inspector and assume the responsibility to arrange for necessary inspections.</p> <p>* Homeowner Initials: _____</p>
